DETAILED ACTION

This office action is in response to Application 10/525,904 filed 25 February 2005. Claims 1-7 are pending with claim 1 in independent form.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1-7 are allowed.
3. The following is an examiner's statement of reasons for allowance: ✓

The prior art of record fails to teach or fairly suggest to one of ordinary skill in the art, in conjunction with all the other limitations of the claims:

With respect to claim 1 and all its dependencies:

- An external storage apparatus having a semiconductor memory on a memory substrate with an external connection terminal at one end, a substrate holder that fixes the memory substrate to a main body in a state that the external connection terminal projects outwards from one end open portion of the substrate through a through-hole where the memory is held, a cap that is freely attachable and detachable to protect the terminal, and an image sensor to sense a fingerprint that is mounted on a surface on an opposite side of the terminal, a substrate holder with a protective plate

with a window positioned directly above the image sensor to expose a sensing surface to the outside and a holding section to hold the protective plate in a vertical direction that is provided within the main body

The prior art of record fails to provide sufficient teaching or motivation to one of ordinary skill in the art to provide the additionally recited features of these claims in the combinations as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
